There are places I remember
 All my life though some have changed
 Some forever not for better
 Some have gone and some remain
 All these places have their moments
 With lovers and friends I still can recall

I can't sum up four amazing years in 500 characters. We've all grown so much and done so many things; that putting our experiences into words is just impossible. So I'll use this space to say a few things that will help us remember what high school was like: 20 minutes lunches, doing homework, NOT doing homework, getting teachers off topic, and SOCCER! It has been a great privilege to have spent the last four years with all of you! I have confidence that the class of 2001 will make a difference.

To all students of math, I leave the courage to do what is right! "Do not be overcome by evil, but overcome evil with good"
